Projects

Growth Club   View App

This Flutter app, built with GetX for state management, offers a seamless experience for channel partners to track sales, earn rewards, and unlock exclusive perks. The app is designed with a focus on UI/UX to provide a clean, intuitive interface that enhances user engagement and ensures smooth navigation across both iOS and Android platforms.

Flutter   Firebase   Dart   REST APIs   GetX

TESA CONNECT   View App

A mobile application bridging Action TESA brand with its partners (carpenters, contractors, architects, interior decorators). The app provides latest offerings, educational content, and product handling information while maintaining real-time updates and partner benefits.

Flutter   Dart   Firebase   REST APIs   GetX

Sudanese Express   View App

This app is for seamless money transfers from Europe to Sudan. We crafted an easy-to-use app that allows you to send money to your family and friends in Sudan, no matter where you are in Europe. With branches across Sudan, your loved ones can conveniently receive the funds they need.

- Developed the core and key features and functionalities of the application
- Integrated payment gateways for seamless international transactions

Flutter   Dart   Payment Integration

Rishta Rewards   View App

A cross-platform e-commerce application built with Flutter, integrating the Rishta Rewards loyalty program from Coca-Cola. The app provides an intuitive shopping experience with seamless performance across iOS and Android devices.

Flutter   Dart   Provider   Firebase   REST APIs

Zulu Travels   View App

Zulu is a travel-based social application where users can post their travel experiences and share them with their connections. Tripadvisor API posts new place information on the social feed page at regular intervals to engage the app users.

Flutter   Dart   Firebase   Firestore   Cloud Functions

Google Maps API
